

### **Arbor Vitae, WI ~ Equipment Van**

This vehicle was originally built as a beverage truck and converted into a equipment truck for the Arbor Vitae fire department. Added to the truck was a NFPA light package (all Federal), Vector light bar, Fire Ray strobes (perimeter), Highlighter mini light bar (upper rear), siren, and speaker. Four (4) Weldon 26°scene lights were added, two (2) each side and two (2) rear. There are four (4) Tele-Lite 500 watt telescoping quartz lights also installed two (2) rear and two (2) front of body. A North Star 6500 watt diesel generator was installed in the right front compartment and plumbed to the chassis fuel system. In the back two (2) compartments there is one (1) rollout tray on each side. The body was also striped per department specifications with 10" lemon yellow reflective Scotchlite outlined in black.
