

## **Clay Twp., Tracey, IA ~ Pumper**

This pumper was built on a Chevrolet C8500 chassis with a CAT C7 300 h.p. engine and automatic transmission. The apparatus is supplied with a Waterous CS 750 gpm single stage pump and UPF1500 gallon water tank. The all aluminum body has high side compartments at both sides with ladder storage located in a rear slide in compartment with door. There was a Powerall under hood 6kw generator installed on the apparatus to supply 120 volt power to (4) 500 watt Extenda-Lite scene lights. The apparatus is supplied with a complete Code 3 warning light and audible warning system.
