

### McMillan Fire Dept, Marshfield, WI Skid Unit

This skid unit was built and assembled for McMillan, WI to be installed into a Ford F250 Super Duty pickup truck. The water tank is a UPF Defender 2 tank with a capacity of 200 gallons of water with an 8-gallon foam cell. The pump is a CET MR 18hp pump with a Scotty foam system plumbed to a Hannay hose reel with 1" lightweight booster hose and two (2) 1 ½" pre-connect discharges, one (1) each side of the skid unit.
