

Ringle, WI ~ Tanker

This tanker was built on an International 4400 Series chassis with a 300 hp engine and a Allison 3060 transmission. This truck is equipped with a 2400 gallon United Plastics Poly Tank with (3) Newton manual dump valves and aluminum diamond plate dump chutes. There are (2) 4" manual butterfly valves for direct tank fill at the rear, and a portable dump mounted on the rear step plumbed with camlock fittings for easy removal from the truck. There are two compartments ahead of the rear wheels 28"high X 24"deep X 60"wide with Turtle Tile compartment matting and Gortite roll-up doors. There is a folding tank compartment next to the tank with a rear access door, and a suction hose storage compartment next to the tank opposite of the folding tank with a rear access door. Lighting and audible warning systems by Federal and Weldon.
