

Waupun Fire Department, Waupun, WI Mini Skid

This mini skid unit was custom fabricated and assembled for Waupun, WI to be installed into a John Deere XUV Gator. The water tank is fabricated from aluminum with a capacity of 100 gallons of water with a small 1-gallon stainless steel foam cell. The pump is a Darley Davey 6hp pump with a Scotty foam system plumbed to a Hannay hose reel with $\frac{3}{4}$ " booster hose. There are also mounts on the tank for a stokes basket to be carried.
